Intuitive Coaching Services Informed Consent Agreement

The information (true, real or imaginary) you receive is from your subconscious mind through my subconscious mind. It is focused communication- subconscious to subconscious. Your subconscious mind holds approximately 16-20 trillion memories per lifetime. Please be specific in what you want to know... have your questions ready. To get the very most out of your session please read the Consumers Beware article and the article on The Mind found on the Home Page of the website.

Your subconscious mind is the calculating part of mind. It takes direction from the conscious levels of mind and is the one that brings “things” into your life. Your Higher Self does not provide “future” information; it will however tell you what is to your highest good at the time.
